

Purchasing Toner & Ink

There are considerations to be made when replacing the ink inside your printers, or even replacing the printers themselves. Most often you can purchase ink cartridges that are composed of previously recycled cartridges.

What to Look For

- Minimized use of harmful chemicals
- Safe working conditions in all aspects of the manufacturing process
- Built in Power saving settings
- Minimal Packaging, ideally made from recyclable or biodegradable materials
- Recycled Ink Cartridges/Reused Ink Cartridges
- Refillable Ink Cartridges

What to Avoid

- Virgin Ink Cartridges
- Unsafe Chemicals
- Unsafe Production Methods
