

Managed Systems Workgroup Meeting - 27 February 2014

27 February 2014

Managed Systems

Recycling

- The OFS will evaluate the cost of quad systems for each office.
- Terry Martin: Bell engineering recycling is problematic. Issues:
 1. Having the bins
 2. Getting them out of the building.
- Lynn Williams: Working G3, Pepsi donated containers for the Greek houses, if Greek Houses are interested, contact Lynn Williams.

Green Revolving Fund

Elizabeth Hood wants to establish a green revolving fund. Facilities Management has an informal fund for sustainability initiatives. She would like to get students, staff and faculty in the review process.

- Anyone could submit a project.
- Wants to get a committee established by the end of the semester.
- Students do not feel that they have a voice in these kinds of initiatives.
- Plan is to start the committee. Possibilities: 1) Sustainability Council 2) WG of council 3) Solely students with advisors 4) half students
- Education is a need for students. Students need to learn about the Sustainability Council.

Email is edhood@uark.edu.

QUESTIONS

- Funding Sources?
 - Green gifts
 - Students
 - Staff
 - Faculty
 - Printing quota surplus
 - Printing reductions in areas such as student ambassadors- postcards instead of envelopes
- Finding participants
 - Major student groups could appoint 2 students

IPM

A comprehensive plan will be vetted by UASC.

- Difficult to coordinate. Auxiliaries each may have their own pest management strategies while FAMA has their own as well.

Conclusion

Next meetings will focus on KPI goals. OFS will provide some ideas for better performance under our KPI's.
